Applicant hereby submits its Status Report No. 8 for the Puente Power Project (“P3”) per the Committee’s revised Scheduling Order issued on April 28, 2016.

The Ventura County Air Pollution Control District (VCAPCD) issued the Preliminary Determination of Compliance (PDOC) on May 18, 2016. The VCAPCD concluded in the PDOC that P3, as proposed, would comply with all applicable air quality rules and regulations. Applicant has reviewed the PDOC and submitted minor comments on June 24, 2016.

The California Energy Commission (CEC) staff issued the Preliminary Staff Assessment (PSA) on June 17, 2016. The CEC staff concluded that with the mitigation proposed in the PSA, and additional air quality mitigation to be developed, P3 would comply with all applicable LORS and not result in any significant impacts to the environment or local community. Applicant is currently reviewing the PSA and looks forward to the PSA Workshop to be held at the Oxnard Performing Arts Center on July 21 and 22, 2016.

DATED: June 24, 2016

Respectfully submitted,

/s/ Michael J. Carroll
