Puente Power Project Oxnard - ALL LIVES MATTER

All Lives Matter, not just the affluent! The peaker in Goleta was moved to Oxnard. Affluent area to non-affluent area. That's pure discrimination and now you're looking to approve another generating station which should go to Santa Barbara or the Malibu coast. You pick the weakest and poorest cities to force your will so you have the least opposition yet the generations go to the affluent who consume the highest amount of the generations. All Lives Matter!!
