Subject: Sierra Club's Comments on Preliminary Determination of Compliance for  
Puente Power Project

Dear Ms. Seel:

In a July 29, 2016 letter to the Ventura County Air Pollution Control District (VCAPCD), the Sierra Club provided a number of comments on the Preliminary Determination of Compliance (PDOC) issued for the Puente Power Project (P3). This letter discussed the results of an ambient air quality modeling analysis of the P3 prepared by Lindsey Sears (see Attachment A). Having the data and modeling files will help us understand and evaluate Ms. Sears' analysis. NRG Oxnard Energy Center, LLC hereby requests copies of all data files and input/output modeling files (in original electronic format) that were used to estimate the air quality impacts described in the Sierra Club's July 29, 2016, letter including Attachment A (TN#s 212635-1 and 212635-2). These electronic files shall include, but are not limited to, the following:

- BPIP files
- AERMET files
- AERSURFACE files
- Receptor grid files
- Elevation data files
- Ambient background hourly ozone and NO<sub>2</sub> data files
- AERMOD modeling input and output files

If you have any questions regarding this request, please do not hesitate to contact me at (760) 710-2156.

Sincerely,

A handwritten signature in cursive script, appearing to read "George L. Piantka".

George L. Piantka, PE  
Sr. Director, Regulatory Environmental Services
