### **Alternative Energy Plants are Needed**

The city of Oxnard does not deserve to be further degraded by more fossil fuel usage. As residents, we have been very vocal about our displeasure of yet another gas-fired power plant considered for our beautiful beach. Honor our desire and reject the Puente Project. We need reliable power, but infrastructure placed on the coast remains vulnerable to sea level rise, which is an increasingly pressing concern in this era of unprecedented climate disruption. Please send this project back to bid and request an alternative energy plant be built elsewhere in Ventura County.
