Pursuant to the November 18, 2016 Revised Committee Scheduling Order, Intervenor Center for Biological Diversity (the “Center”) submits the following Status Report:

Proceeding Schedule:

The Center agrees with the City of Oxnard¹ that the current schedule does not adequately provide for meaningful public and intervenor participation, particularly with respect to preparation of rebuttal testimony. The Center further agrees with the City’s recommendation that the Commission reconsider its scheduling order in light of the Coastal Commission’s recent determination regarding the immediate effectiveness of relevant provisions of the City’s General Plan. The Center thus concurs with the City’s recommendation that evidentiary hearings in this matter be moved forward one month.

Dated: December 1, 2016

Respectfully submitted,

(Original signed by Kevin P. Bundy)
