**REQUEST FOR PUBLIC ACCESS TO THE ENCLOSED FINAL STAFF ASSESSMENT FOR THE PROPOSED PUENTE POWER PLANT (15-AFC-01)**

Dear Librarian:

We request that the enclosed copy of the Final Staff Assessment (FSA) for the Puente Power Project be made publicly available in your library for those who may wish to be informed about this energy project under review by the California Energy Commission (Energy Commission) and that it, along with the Notice of Availability, be placed in a conspicuous and accessible location.

We request that you not allow the Notice of Availability or the FSA to be removed from the library for a period of one year. To increase accessibility of the document, we ask, if possible, that you cross reference it as a general reference work under the title and author categories, as well as under such subjects as "Energy Commission," "electricity energy/generation," "power plant siting," or any other relevant subject.

The enclosed FSA contains Energy Commission staff's final engineering and environmental evaluation of the proposed project. The 262-megawatt (MW) electric power project would be located on a 3-acre portion of the 36-acre Mandalay Generating Station at 393 North Harbor Boulevard, Oxnard, Ventura County.

The Energy Commission's siting process encourages input from the public as well as local, state and federal agencies and tribes. To facilitate public participation in our review process, the Energy Commission distributes copies of staff documents such as the FSA to public libraries in communities near the proposed project, and in major cities throughout the state.

Thank you for your cooperation. If you have any questions, please contact Shawn Pittard, Energy Commission Project Manager, at (916) 654-4026 or e-mail at [shawn.pittard@energy.ca.gov](mailto:shawn.pittard@energy.ca.gov).

Sincerely,

Date: December 9, 2016 Signature on File  
Michael D. Lewis, P.E.  
Deputy Director  
Siting, Transmission, & Environmental Protection Division
