I used to live near this site

To whom this may concern,

I used to live in the area where you are planning on building the Oxnard power plant. Part of the reason we moved from the area was the very poor air and water quality, the proximity to a Super Fund site, the pollution from the military base. The area is overloaded with polluting industry and the people who live there are suffering. It is cruel to even consider adding to the the pollution problems that the residents there are exposed to on a daily basis. It's time for you to stop your efforts to add to the problem. Look for alternative locations, or better yet, clean energy options.

Respectfully,
Sandra Kinsler
