## **No to new power plant in Oxnard**

I am a home owner in the City of Oxnard. I am so often surprised at the projects that Oxnard endorses. Example closing off A street to traffic in shopping district, reopening A street to traffic, not allowing a Casino to open, paving streets on Silver Strand Bch. with low quality paving, paying top dollar for special effects theater at Plaza park, building housing at the Wharf (public land) with no consideration for traffic dilemma and now a power plant?

Obviously the health, welfare and safety of Oxnard's citizens is not a consideration. Think before you build such a thing. How will it impact the environment not just while running smoothly but if there was a catastrophic event. Don't try to fill your pockets and/or your egos with such a project. We need more clean power sources that benefit the Earth.

Think it over.

Sylvia Salas
