Response to CEC final assessment of the Oxnard NRG project

How could the California Energy Commission's final assessment of the NRG project support approval? The Oxnard City Council and the California Coastal Commission voted unanimously to oppose it, as well as opposition by Oxnard's elected county, state, and federal representatives. The people of Oxnard want clean renewable energy alternatives to NRG's power plant proposal. It seems the CEC has not been listening to the people. Why can't you understand that in a democracy the will of the people must be respected? Last night Oxnard said no to the NRG gas fired plant once again. Deny NRG's proposal!
