## **Power Plants**

We, the people of Oxnard, say NO MORE POWER PLANTS, It is time your commission listen to the will of the people and stop just rubber stamping what large and rich power companies want done. We don't need this power plant to give us local energy, we have heard it is to benefit mostly those living inland so put it there where it belongs. We don't need further pollution and an eyesore of a smokestack which is ugly and also dangerous to incoming and outgoing planes taking off and landing at our local airport. We don't want more breathing problems for ourselves and our children.
