Announcement

Thank you for your response to SCE's Goleta Area RFO Collaboration Workshop survey that was sent out earlier this month in anticipation of the Goleta Area RFO that SCE may launch some time during the first quarter of 2017, potentially for the following behind-the-meter (BTM) and in-front-of-meter (IFOM) distribution energy resources:

- Demand Response (traditional load reduction and battery storage)
- Energy Efficiency
- Permanent Load Shift
- Energy Storage (IFOM)
- Renewable DG (IFOM and BTM)
- Solar PV/Energy Storage Hybrid (IFOM and BTM)
- Combined Heat & Power
- Fuel Cells

Since the majority of survey respondents expect to attend in person and support having the workshop in Goleta on Tuesday, December 13th, SCE has scheduled the workshop as follows:

- **When: Tuesday, December 13, 2016 from 9:00 a.m. to 12:00 noon**
- **Where: UC Santa Barbara Campus**

Additional details, such as the specific conference auditorium, parking, and other logistics, will be provided shortly.

Among the topics to be discussed at the workshop are:

- Purpose of RFO
- Targeted Need (MW)
- Solicited Products (eligibility requirements, preferences, etc.)
- RFO Process (time lines, offer selection process, etc.)
- Customer Composition in the Goleta Area
- Interconnection Requirements
- Dual Participation (RFO PPAs and Demand Response Programs, Tariffs, etc.)

Last, we encourage you to immediately register at our website at <https://scegarfo.accionpower.com> following these 2 steps:

Step #1 Please register on the RFO website itself by clicking the "Register" link.

Step #2 Second, register for the Collaboration Workshop by clicking the "Workshop" link
(Note: this link only appears after you register on the RFO website in Step #1)
