August 21, 2015

Dear Interested Party:

On behalf of the California Energy Commission, I would like to inform you that the NRG Oxnard Energy Center Limited Liability Corporation has submitted an Application for Certification to construct, own and operate the Puente Power Project. The proposed project would be sited at the existing Mandalay Generating System site at 393 North harbor Boulevard in Oxnard, Ventura County, CA, 93035.

A designated committee and staff of the Energy Commission will hold a public informational hearing and site visit on Thursday, August 27, 2015. It has been publically noticed. The link to the notice is

[http://docketpublic.energy.ca.gov/PublicDocuments/15-AFC-01/TN205586\\_20150731T115025\\_NOTICE\\_OF\\_PUBLIC\\_SITE\\_VISIT\\_ENVIRONMENTAL\\_SCOPING\\_MEETING\\_AND\\_I.pdf](http://docketpublic.energy.ca.gov/PublicDocuments/15-AFC-01/TN205586_20150731T115025_NOTICE_OF_PUBLIC_SITE_VISIT_ENVIRONMENTAL_SCOPING_MEETING_AND_I.pdf).

At these initial public events, the applicant and Energy Commission staff will describe and discuss the proposed facility, answer questions, and the committee will hear public comments. In addition, all participants will have an opportunity to tour the proposed project site. These initial events will be followed by other public hearings and workshops during the Energy Commission's review process. That process takes approximately one year and includes seeking, analyzing and considering information about the potential impacts of the project.

If you want more information about this project, please contact the Public Adviser's Office at [publicadviser@energy.ca.gov](mailto:publicadviser@energy.ca.gov), or call (916) 654-4489 or toll free in California at (800) 822-6228. You can call or email to reserve a space on the bus for the site visit; please contact our office by Tuesday, August 25, 2015. Also, please help us with publicizing these events by mentioning them to other, potentially interested persons and organizations.

Sincerely,

Alana Mathews  
Public Adviser
