we want clean air, clean beaches, and healthy children

Hi, I'm a mom and have 3 kids and we live just down the street of the proposed power plant we surf and walk the beach almost every day and sadly we already have to look at a huge power plant on the beach that we love. Which actually looks more like a nuclear missile ready to be launched it's pretty disturbing, and that's just how it looks to the natural beautiful environment that it's sitting on. The Real Truth to it's existence is Far worse, the facts have shown us that it's not good for our community and Now the Choice is Yours will you die leaving a good legacy or will you die with a little more money in your pocket ?? I BEG OF YOU PLEASE DO NOT ALLOW TO POWER PLANT TO BE BUILT ON OUR BEACH, PLEASE
