Opposing the Puente Power Plant

To Whom it May Concern,

I write to ask you to not approve the Puente Power Plant in Oxnard, California. As you know, Oxnard already has extremely high rates of asthma, and Californians do not need more power plants that consume natural resources. We should be putting our investments towards sustainable energy infrastructure that benefits all Californians and doesn't add to health and environmental problems.

Thanks for your consideration,

Jessica Love-Nichols
