## **Opposition to the Puente Power Plant Project**

I oppose the development of the Puente Power Plant for the following reasons:

1. The project perpetuates environmental injustice by siting yet another plant near low income communities;
2. The project threatens our precious and environmentally sensitive coastal areas; and
3. The project is unnecessary when California already has sufficient energy; and is the wrong direction to take, when we should be pursuing renewable energy sources such as solar, wind and geothermal energy.
