## **Not another NRG Plant**

Please do not build another plant in Oxnard. There are enough environmental issues as it is and the pollution is high already. It's not fair that Oxnard gets targeted for these types of plants. It's hard not to think that it's because it's a predominantly working class Latino population which would classify as environmental racism. Please consider the many children who have respiratory issues and all of the people who live in Oxnard. Many people exercise outside and breathe in the toxic air. Also all of the workers who pick the vegetables and fruits that we eat. Those people who have to be outside for work or play don't have a choice on the air that they create. You can make a difference and stop the construction of a new power plant. My hometown does not need it!!!!
