Say No to the NRG power plant in Oxnard

Over and over again my city had been the target for this dirty energy and we are tierd of it. We have been fighting this for years and want to be listened too. You may not have to live with the defects of a dirty power plant but for generations to come we will. Oxnard is everything to me . Everyone that I care for lives in Oxnard. Please do not do this to us. Say no or live with the guilt of knowing you signed Oxnards faith for years to come. Help us not be stepped all over or continue to make it hard for us to breath.
