Support Puente

Dear Commissioners,

I am writing today to express my support for the Nrg power plant. I support this project for a few reasons. First, I believe our county needs a reliable source of energy for all the daily necessities in life. Second, this plant is cleaner and better for the environment. Third, this project will provide much needed tax revenue to the surrounding communities and county. And last, the location of the power plant already has the infrastructure in place.

My family and I have been avid beach-goers our entire life. We have walked countless miles searching for sea glass and shells on many beaches, including Mandalay. In fact, we have found some of the most beautiful pieces of sea glass at the mouth of the generating station canal. We have seen a lot of sharks and other wild life in the canal, and itâ€™s been a great experience for my kids learning about nature.

The power plant has never been an issue of accessibility or stopped us from enjoying it. Though I will admit, the old power plant hasnâ€™t been the best thing to look at. Therefore, we are thrilled that the old stacks will come down with the new plant, and it will make the beautiful beach that much better.

Thank you,

Morgan Stiles
