Notice of Public Workshop for the Puente Power Project (15-AFC-01)

The California Energy Commission staff will conduct a public workshop for the Puente Power Project. All interested parties, agencies, and members of the public are invited to participate. The workshop will be held:

Tuesday, March 28, 2017

Beginning at 11:00 a.m. and ending not later than 3:00 p.m.

Oxnard Performing Arts Center
800 Hobson Way
Oxnard, CA 93030
(wheelchair accessible, map attached)

WebEx Call-in toll-free number: **1-866-469-3239**

Access code: **922 421 014**

This meeting does not require a password

(Please see attached instructions for WebEx access)

This workshop is being held in response to the March 10, 2017 Committee Orders for Additional Evidence and Briefing Following Evidentiary Hearings. The purpose of the workshop is to discuss and identify the best approach or approaches to supplement the assessment of coastal flooding risk for the Puente Power Plant through 2050. The workshop agenda will include a discussion of the following:

- The utility and applicability of using CoSMoS 1.0 instead of, or as a supplement to, the analysis conducted using CoSMoS 3.0;
- The utility and applicability of using CoSMoS 3.0 as it was used in the Final Staff Assessment (FSA) or modified in some way, including by utilizing any additional model information that may have become available since the publication of the FSA;
- The utility and applicability of using a combination of CoSMoS 1.0 and 3.0; and
- The utility and applicability of utilizing Dr. Revell's projection of 2050 conditions as the worst case for flood/sea-level rise risk.

The public will have an opportunity to comment on these subjects during the course of the workshop.

You can subscribe to receive e-mail notification of all notices and announcements at: <http://www.energy.ca.gov/listservers>. By being on this email list, you will receive notice of

all project-related events and documents pertaining to the project's review. The status of the proposed project, copies of notices, data requests, data responses, an electronic version of the Application for Certification (AFC), and other relevant documents are also available on the Energy Commission's website.

BACKGROUND

On April 15, 2015, NRG Oxnard Energy Center, LLC, submitted an AFC to construct, own and operate the Puente Power Project. The 262-megawatt (MW) electric power project would be located on a 3-acre portion of the 36-acre Mandalay Generating Station (MGS) at 393 North Harbor Boulevard, Oxnard, Ventura County.

The proposed project would comprise one gas-fired combustion turbine generator (CTG), a 188-foot exhaust stack, and miscellaneous improvements necessary to either extend or reuse existing site structures and utilities. The existing Mandalay Generating Station Units 1 and 2 would be decommissioned and, if Puente is built and becomes operational, the power blocks and exhaust structure would be demolished and removed. The existing MGS Unit 3 would continue to operate. The existing wastewater outfall structure to the Pacific Ocean would no longer be used and would be demolished and the beach restored.

PUBLIC RESOURCES, CONTACT INFORMATION AND ADDITIONAL SOURCES FOR INFORMATION

If you desire information on how to participate in the Energy Commission's review of the proposed project, please contact Alana Mathews, the Energy Commission's Public Adviser, at (916) 654-4489 or toll free in California at (800) 822-6228, or by email at publicadviser@energy.ca.gov.

For additional information about the project or this workshop, contact Shawn Pittard, Energy Commission Project Manager, at (916) 654-4026 or email at Shawn.Pittard@energy.ca.gov.

News media inquiries should be directed to Albert Lundeen, Deputy Executive Director, at (916) 654-4027, or by email at mediaoffice@energy.ca.gov.

If you have a disability and require assistance to participate, please contact Poneh Jones at poneh.jones@energy.ca.gov or by telephone at (916) 654-4425 at least five days in advance.

**MARCH 28, 2017
STAFF WORKSHOP
PUENTE POWER PROJECT (15-AFC-01)**

REMOTE ATTENDANCE FOR THE PUENTE POWER PROJECT STAFF WORKSHOP

You may participate in this workshop through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to audio via your computer or telephone. Please be aware that the meeting will be recorded.

1. COMPUTER LOG-ON WITH A DIRECT PHONE NUMBER:

- Please go to <https://energy.webex.com> and enter: **922 421 014**
- When prompted, enter your information (no password is required for this meeting)

After you login, a prompt will appear on-screen for you to provide **your** phone number. In the **Number box**, type your area code and phone number and click **OK**.

You will quickly receive a call back on your phone for the audio portion of the meeting.

2. COMPUTER LOG-ON FOR CALLERS WITH AN EXTENSION PHONE NUMBER, ETC:

- Please go to <https://energy.webex.com> and enter: **922 421 014**
- After you login, a prompt will ask for your phone number. Click **"CANCEL."**
- Instead call **1-866-469-3239**. When prompted, enter: **922 421 014** and your unique Attendee ID number which is listed in the top left area of your computer screen after you login.

3. TELEPHONE ONLY (NO COMPUTER ACCESS):

- Call **1-866-469-3239** and when prompted enter: **922 421 014**

If you have difficulty joining the meeting, please call the WebEx Technical Support number at **1-866-229-3239**. To see if your computer is compatible, visit [<http://support.webex.com/support/systemrequirements.html>]. Please be aware that the meeting's WebEx audio and on-screen activity may be recorded.

The WebEx recordings of the workshop will be posted on the project's website, and may to be accessed for later review.
