Deep Concerns about Proposal to Build Fourth Power Plant

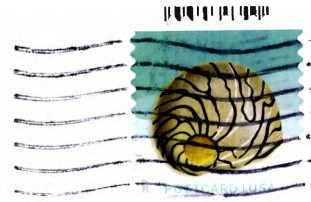

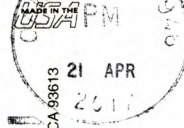

Additional submitted attachment is included below.

COLUMBIA STATE HISTORIC PARK
CALIFORNIA

Today Columbia is one of the best preserved towns in all of California's Mother Lode. As a living community, Columbia State Historic Park offers a unique blend of historic museums, displays, hotels, restaurants and shops.

I am writing to express my deep concerns about the proposal to build a fourth power plant in Oakland, California. With asthma rates higher than 90% of California communities Oakland needs clean air now, not a fourth polluting power plant. I demand that the Energy Commission reject this polluting power plant in Oakland and explore all feasible alternatives and mitigation measures through a legitimate public process, as mandated under the California Quality Act (CEQA)
