## **FEDEX**

I am writing today because global trade matters to me.

The benefits that come from international trade affect my work and my life in positive ways, as they do for millions of others in this country. International trade promotes job creation in our state and economic growth in our country. I encourage you as my representative in Congress - to support ongoing efforts to enable more U.S. trade with other countries.

With a majority of the worlds consumers living outside the U.S., if you modernize trade rules by streamlining customs, lowering tariffs and simplifying regulatory processes, it will open up even more opportunities for all Americans to benefit from the global economy.

I encourage you to support trade policies and agreements that remove barriers and simplify international commerce.

Its important in this global economy that we stay competitive. Trade Keeps America Great.

As your constituent, and someone whose job is directly impacted by trade, I ask that you make trade a priority. It is for me.
