Docket Number: 15-AFC-01

No new polluters.

Hello,

As a resident of our great state and a breather of oxygen, I implore the energy commission to please stand up to the natural gas industry and commit to a California that invests public funds ONLY on environmentally friendly green energy technologies, one that does not say "how high" when the Koch brothers ask us to jump.

For our children. No more gas, no more fracking, no more of any of that garbage. Invest in the FUTURE.

Best Wishes,

Alexander Barber

P.S. The captcha on this form is 'commerce tank'. I thought that was funny.
