Reject the Puente Power Project

Dear Submit your public comment,

I urge you to reject the Puente Power Project.

We should be working to clean the air, at best stabilize it at current toxicity levels, not endanger humanity further now and in future generations with more air pollution.

Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewables.

This project is out-dated. Put it to rest, reject the Puente Power Project.

Sincerely, Linda Crockett
