## **Clean Air for Oxnard California Residents**

Stop the Puente power plant. California has an oversupply of Power plants and Oxnard residence are struggling for clean air. Give Oxnard a change to breath clean air, Please oppose the project. Energy experts began to suggest an alternative could be cleaner and cheaper while creating more jobs, without any new burning of fossil fuels. CAISO, the state agency who runs California's electricity grid, offered to conduct a study of this possibility. Please authorize the study of whether clean energy could replace the proposed power plant.
