## **Reject the Puente Power Project**

Dear Submit your public comment,

I am writing to urge you to reject the Puente Power Project.

This project would be damaging to California communities. The city of Oxnard already has some of the highest asthma rates in the state. We should be working to clean the air, not endanger California communities with more pollution.

Additionally, this project is uneconomical and unnecessary. Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewables. Clean energy solutions can create more good, local jobs in the Oxnard area for a fraction of the cost.

This is a project whose time has passed. Now more than ever, Californias leadership is essential to lead our nation toward a clean energy economy. We aren't going to get there by building uneconomical projects that lock in more pollution and dependence on fossil fuels. The time for this power plant is long past.

I urge you to reject the Puente Power Project.

Sincerely, Elizabeth Schneider
