Reject the Puente Power Project

Dear Submit your public comment,

I am writing to urge you to reject the Puente Power Project. I am the mom of a 2 year old and a 5 year old. I know that their future will be shaped by more and more droughts, fires and storms. I know that the world they will grow up in will be harder to survive in than the one I grew up in. I have faith because I also know that so many of us are waking up and realizing that its up to us to do everything we possibly can to protect the future we are leaving to our kids. I am writing this letter because its one thing I can do. I hope you vote to reject this power plant because its one thing you can do.

This project would be damaging to California communities. The city of Oxnard already has some of the highest asthma rates in the state. We should be working to clean the air, not endanger California communities with more pollution.

Additionally, this project is uneconomical and unnecessary. Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewables. Clean energy solutions can create more good, local jobs in the Oxnard area for a fraction of the cost.

This is a project whose time has passed. Now more than ever, Californias leadership is essential to lead our nation toward a clean energy economy we aren't going to get there by building uneconomical projects that lock in more pollution and dependence on fossil fuels.

I urge you to reject the Puente Power Project.

Sincerely, carolyn norr
