## **Puente Power Plant**

Dear Submit your public comment,

I am writing to urge you to reject the Puente Power Project.

California is supposed to be leading the world to alternatives, not dragging our feet into the future. I understand the need for a 'portfolio' approach to energy (and water), but if this is the most innovative we can do, we need to throw in the towel. You can do better than this.

I urge you to reject the Puente Power Project.

Sincerely, joline godfrey
