## **Reject the Puente Power Project**

Dear Submit your public comment,

I am writing to urge you to reject the Puente Power Project.

This project would be damaging to California communities. The city of Oxnard already has some of the highest asthma rates in the state. That health concern will not improve if this project goes forward.

Additionally, this project is uneconomical and unnecessary. Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewables. Clean energy solutions can create more good, local jobs in the Oxnard area for a fraction of the cost.

This is a project whose time has passed. Now more than ever, Californias leadership is essential to lead our nation toward a clean energy economy we need to show the world that despite the tenor of the present administration, we understand that clean power is the power of the future.

I urge you to reject the Puente Power Project.

Sincerely, Karen Lyon
