Reject the Puente Power Project

Dear Submit your public comment,

I write to urge your rejection of the Puente Power Project.

This project would damage California communities. Oxnard's asthma rates are dangerously high. Let's work to clean the air, not corrupt it with more pollution.

Additionally, Puente would cost more than twice as much as the cost to meet the same electricity needs with renewables. We need better energy solutions that create more local jobs in the Oxnard area for a fraction of the cost.

This project's time has passed. Let's strengthen Californias leadership toward a clean energy economy we Won't get there by building uneconomical projects that lock in more pollution and dependence on fossil fuels.

I urge you to reject the Puente Power Project.

Sincerely, JoAnn Anglin
