## **Reject the Puente Power Project**

Dear Submit your public comment,

Please reject the Puente Power Project. By expanding fossil fuel infrastructure, it would move our state in exactly the wrong direction--precisely when states and localities need to act decisively to limit greenhouse gas emissions. It would add air pollution to communities already experience some of the highest asthma rates in the state. And the project would cost more than twice the price of meeting the same electricity needs with renewables, while creating fewer jobs.

Please do your part to enable California to lead our country away from climate change inducing fossil fuels and toward a clean energy present. Don't lock in dependence on natural gas with its inevitable greenhouse gas emissions. Reject the Puente Power Plant.

If not now, when?

Sincerely, Barbara Fukumoto
