Reject the Puente Power Project

Dear Submit your public comment,

I am writing to urge you to reject the Puente Power Project.

This project would be damaging to nearby communities and it is uneconomical and unnecessary. Puente would cost more than twice as much as it would cost to meet the same electricity needs with renewables. Clean energy solutions can create more good, local jobs in the Oxnard area for a fraction of the cost.

This is a project will be obsolete before it is completed, at an exorbitant cost. Californias leadership is essential to lead the US to a clean energy economy, but building uneconomical projects that lock in more pollution and dependence on fossil fuels is NOT a way to show leadership.

I urge you to reject the Puente Power Project.

Sincerely, Marilee SCHOLL
