I oppose the permit for the sPuente Power Plant in Oxnard

I oppose this permit. It is another case of being grossly unfair to low income people. Transport of the natural gas is an accident waiting to happen. GAs line, or tanker, or rail.

Decommissioning the plant is putting off problems for future generations. unacceptable.

The air quality of Ventura County is already degraded enough.

California is planning for more than 50% sustainable/renewable. This plant subtracts from that idea.
