## Memorandum

To: All Parties and Persons Interested in the Puenta Power Project Proceedings (15-AFC-01)      Date: July 24, 2017

From: Paul Kramer, Hearing Officer  
Puenta Power Project AFC Committee

Subject: July 26 and 27 Evidentiary Hearings Witness Worksheet and Other notes

I write to update you regarding the July 26 and 27, 2017 Evidentiary Hearings in Oxnard. Thank you to the parties who filed their prehearing statements on Friday. The Exhibit List is being updated in the efilng system to reflect your proposed exhibits. It should be complete this evening.

We will consider the Motion to Strike "Closing Supplemental Testimony of James H. Caldwell" (TN 220297) as part of the Prehearing Matters segment at the beginning of the hearing on July 26.

Commission Staff asked if the Committee required the physical presence of their Compliance and Closure witnesses. While no party indicates having specific questions for them, the Committee may have a question or two and others may arise during the discussions with the other witnesses. Those witnesses can participate via WebEx if they find it more convenient. Just please be on a handset or a headset, not on a speakerphone, while testifying.

Attached is the Witness Worksheet showing the order of presentation of topics and party time estimates. Based on those estimates, we plan to finish testimony on Thursday and do not expect to conduct any hearings on Friday unless circumstances significantly change.

This afternoon Ellison Folk called to ask about a witness presenting some (electronic) slides as part of his testimony. I asked that she file a PDF of the slides before the hearing for all to see and I ask the same of any other party proposing to show slides that are not already part of the record.
