**reject the PPP, don't invest in energy industries that hurt EVERYONE!**

The PPP is an obsolete and unnecessary energy technology that hurts our communities and environment--and Oxnard and other working class and communities of color have just as much right to better, wiser, juster alternatives as wealthy locations like Santa Barbara and Goleta that bear few environmental burdens compared with Oxnard. This is wrong in multiple ways, and delays pursuit of real alternatives that are better for all.

The PPP is unjust and foolhardy, it has only greed and racism on its side. Together we can be much much better than that. Please reject the PPP!!!
