Subject: Docket Log Filtering Now Available

I am pleased to announce that an e-filing feature that some of you requested during our recent Evidentiary Hearing has been implemented by our programmer.

While viewing the Docket Log on the public web site, found at

<https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=15-AFC-01>

you can select whether to include comments, documents, and transcripts in the list. By default, all three are shown when you begin. Uncheck the appropriate box to remove that type. Click the magnifying glass to apply the changes to the view.

Once you've filtered the list to your liking, you can search for individual documents by title and description using your browser's search function (Ctrl-F in most browsers).

The Transcript category is not used for current cases, including Puente, but may help with documents filed under the previous system that were migrated to the new system.
