Subject: NRG Power Plant Development at Oxnard Shores

I don't know who to send this to at California Energy Commission, so I am sending it to you. We are 40 year residents of Ventura County, on the coast, about 5 miles north of the Mandalay Bay Power Plant in Oxnard. We have been advised that NRG is playing a major expansion and addition of another fossil fuel power plant at this location. As concerned citizens aware of our our states stated goals on renewable energy, we are vehemently opposed to this plant. Please forward this message to the appropriate parties involved prior to the meeting which occurs this week. This expansion is not needed and is counter to our environmental goals.

Thank you for your assistance on this matter.

Sincerely

Steven C. Cook
