(916) 654-5103

**Subject:** Notice that Siting Case Committee Appointments will be Reviewed During the July 30, 2015 California Energy Commission Business Meeting

The proceedings for the Sun Valley Energy Project, the San Gabriel Generating Station, and the Willow Pass Generating Station have been in suspended status, formally or informally, for several years. A separate Siting Case Committee ('Committee'), composed of two Commissioner members, was previously designated to conduct a proceeding for each project. Currently, only one of those Committees has two appointed Commissioner members. Another Committee has only one Commissioner member and the last Committee has two vacancies. On July 30, 2015, during its Business Meeting, the California Energy Commission will consider making additional or revised assignments to the above Committees.

Subsequent to the Business Meeting, the Committees will notice and conduct hearings to consider the motions to terminate filed by Commission staff in each proceeding and the project proponents' requests to extend the project suspensions.

The agenda for the July 30 Business Meeting will be available ten days before the meeting at: [http://www.energy.ca.gov/business\\_meetings/index.html](http://www.energy.ca.gov/business_meetings/index.html). That agenda contains information about participating in the meeting via telephone and other information.
