California Energy Commission  
Dockets Office, MS-4  
1516 Ninth Street  
Sacramento, CA 95814-5512

**Re: 5,533 Californians Ask the Commission to Reject the Application for Certification for the Puente Power Project (Docket No. 15-AFC-01)**

To the California Energy Commission:

Attached, please find a letter signed by 5,533 individuals and families across California, all of whom ask the Commission to deny NRG's request to extend this proceeding to June 2019, and to issue a decision denying the Puente Power Project's Application for Certification.

Respectfully,

\_\_\_\_\_  
/s/

Friday, May 11, 2018

Robert Weisenmiller	Chairman
Andrew McAllister	Commissioner
David Hochschild	Commissioner
Karen Douglas	Commissioner
Janea Scott	Commissioner

Dear Commissioners:

I'm writing to ask you to deny NRG's request for a further extension on the application for the Puente Power Plant.

Puente was always a bad idea. The proposal to build more fossil fuel infrastructure on Oxnard's beaches was inconsistent with California's goal of a clean energy future, and its commitment to expanding environmental justice. I am thankful that the Commission recognized the environmental consequences of Puente and announced its intention to reject the facility's permit. Now, Southern California Edison is pursuing clean alternatives to Puente.

It is time for the Commission to take the final step, and officially deny NRG's Application for Certification.

The residents of Oxnard have spoken out against Puente at every opportunity, and deserve the finality of a final Commission decision. Please deny NRG's request for an extension, issue a final decision denying NRG's Application for Certification of the Puente Power Plant, and provide closure to the residents of Oxnard.

Sincerely,

*The undersigned Sierra Club members and supporters*

**4. Beverly Goldrup**

Los Angeles, CA 90004

There is absolutely no way any power plant can be considered "safe." There is absolutely no need for any more polluting power plants. Tell NRG to invest in solar power. Enough is enough.

Ventura County is my home and it is absolutely gorgeous with only 2 tall buildings in Oxnard which leaves the landscape coming down the grade as a beautiful sight. Not only would the Puente Plant ruin that view it would pose a huge health risk to resident

No one should have to raise their kids next to a power plant of any sorts. even more so these plants should not be imposed on communities but should only be approved to function based on the majority of that community's votes.

Building more fossil-fuel energy plants is a short-sighted energy supply strategy.

It reflects an irrational denial of the fact that the production and burning of fossil fuels worsen climate change - the greatest threat to humanity of all time.

**2836. Barbara Tosh**

Seaside, CA 93955
