Santa Paula, Ca. 93060

Re: Water Supply Agreement for Mission Rock Energy Center

Ladies and Gentlemen:

By this letter, Mission Rock Energy Center, LLC ("MREC") seeks acknowledgement from Limoneira Company ("Limoneira") that in connection with MREC's development of a natural gas-fired electric generating facility in Ventura County, California (the "Facility"), Limoneira and MREC have entered into an agreement pursuant to which Limoneira and MREC have agreed to, among other things, the following:

- Limoneira has provided MREC with a first priority option on any and all treated water discharged from Limoneira's water treatment facility located at 1141 Cummings Road, Santa Paula, California that provides treatment services for process/wash water from Limoneira's produce packing house, sanitary sewer discharge from employee housing and other sources, for industrial purposes in connection with MREC's operation of the Facility, which is anticipated to be between 1,300,000 and 2,300,000 gallons per month; and
- the term of the agreement commences upon its execution and continues for so long as MREC (or its successor or assignee) owns the Facility; provided that within seven (7) years of the execution of the agreement MREC must commence construction of the water delivery line connecting the Facility to Limoneira's water treatment facility and must diligently pursue completion of such construction.

Please indicate your acknowledgement of the foregoing by countersigning in the space provided below and returning the countersigned copy to our attention.
