Edward Ramirez IH Comments on Mission Rock

Additional submitted attachment is included below.

My name is Edward Ramirez, I went to preschool in a room just a few feet to the right of you. Elementary right across the street and I've lived across the street from the high school for over a decade. Home and Santa Paula are synonymous.

I want to protect my home.

The Limoneta-Calpine project would only create 16 new "living wage" jobs, what \$/hr an hour? No matter how new & pretty the boxed jet engines are ~~the~~ burning such a high quantity of fossil fuel will ~~pollute~~ ^{back} ^{insert} ^{here} me my mom & nephew already have asthma so do many here, this is Public Health Risk I heard of a Calpine representative speaking of "environmental excellence" When I was intermingling I heard that the EPA had fined Calpine for ~~letting~~ letting Arsenic contaminate ground water. ^{Everyone} ^{breathes} ^{air}

I DK if that's true or not but that's why I'm here. 2009

Like I said this is home, I have at least a dozen kin ~~here~~ in this building. I plan on raising my kids here, hopefully ~~in~~ in several years, but I wouldn't want Limoneta & Calpine to be the reason my children develop asthma.
