Subject: **HOLD THE DATE:** Status Conference on Monday, June 12, 2017, in Sacramento, California

Please take note that the Committee assigned to conduct proceedings on the Mission Rock Energy Center Application for Certification (Application) has scheduled a status conference for Monday, June 12, 2017, at the Energy Commission headquarters, located at 1516 9<sup>th</sup> Street, Sacramento, California, beginning at 2:00 p.m. This date was selected after soliciting input from the parties and the public.<sup>1</sup>

The purpose of a status conference is to discuss the progress made on processing the Application, any barriers to the timely completion of Staff's analysis, date-specific project milestones, and any other matters relevant to the schedule. It may also address any then-pending motions, petitions, or other requests that are ready for consideration.

The Energy Commission strongly encourages and welcomes public participation in its programs and proceedings. In addition to participating in person in Sacramento, the Committee will use an internet- and telephone-based meeting service.

A formal notice of the meeting will follow shortly.
