Subject: MISSION ROCK ENERGY CENTER (15-AFC-02) STATUS REPORT #14

Staff submits the following status report #14 for the Mission Rock Energy Center.

Preliminary Staff Assessment Status

Staff has completed all analyses that comprise the Mission Rock Energy Center (MREC) Preliminary Staff Assessment (PSA), with the exception of the Air Quality/GHG and Public Health sections. Staff are still awaiting formal information from the published Preliminary Determination of Compliance (PDOC) from the Ventura County Air Pollution Control District (VCAPCD). The Air Quality/GHG and Public Health staff have been working with the VCAPCD to complete portions of their assessments with preliminary information, as appropriate.

The VCAPCD is expecting PDOC publication by mid-October. According to Kerby Zozula, Manager of the Engineering Division at VCAPCD, the PDOC is undergoing final reviews. Additionally, the VCAPCD is preparing a Spanish language translation of the public notice, and is working with local newspapers and its internal web team for a coordinated PDOC publication.
