**Subject: MISSION ROCK ENERGY CENTER (15-AFC-02) STATUS REPORT #17**

Staff submits the following status report #17 for the Mission Rock Energy Center.

## **PSA Comment Period**

Because the Preliminary Staff Assessment was published during the holiday season (November 27, 2017), staff provided a 60-day PSA comment period versus the typical 30-day comment period. Staff has received a request to extend the comment period further, to give residents impacted by the Thomas Fire time to review the Mission Rock PSA. The applicant has indicated support for an extended comment period. Staff therefore proposes to extend the PSA comment period by 30 days more, to 2/26/18. The PSA comment period would conclude at the close of business on Monday, February 26, 2018.

## **PSA Workshop**

Staff has planned a PSA Workshop for January 18 and 19 (if needed), 2018 with cooperation from the applicant. There would be public comment throughout the workshop, and also a specific Public Comment Period beginning at 6pm on the evening of workshop day #1. The PSA Workshop would be held in the city of Santa Paula at the Santa Paula Community Center. A PSA Workshop Notice to this effect is ready for filing.
