Rick,

Nice job Rick!

Thanks for taking your time & effort to so clearly & thoughtfully express the importance of storing now this spent nuclear fuel safely and for the longest possible time.

It is of clear & paramount importance that we do not cut corners on this project to save a little now. The money, time, & effort saved now will clearly be lost many fold when the low-cost solution begins to fail in the all-too-near future.

Regards,
Michael Radunsky
