AB758 Existing Buildings Energy Efficiency Action Plan

Although California's energy efficiency goals have seemed lofty, the naysayers many, with the Action Plan and the persistence of all the stakeholders in our desire to achieve the goals, they will be realized.

Simply stating, with no arrogance, when it comes to energy efficiency, the rest of the United States looks to California for leadership, and because of our leadership, follows.

I am honored to be a part of the process.
