NOTICE OF RECEIPT
PETITION TO AMEND
THE CALIFORNIA ENERGY COMMISSION DECISION FOR THE
IVANPAH SOLAR ELECTRIC GENERATING SYSTEM (07-AFC-5C)

On March 17, 2015, Solar Partners I, LLC; Solar Partners II, LLC; and Solar Partners VIII, LLC (the project owners) filed a petition with the California Energy Commission (Energy Commission) requesting to amend the Air Quality Conditions of Certification for the Ivanpah Solar Electric Generating System project (ISEGS). The 370-megawatt project was certified by the Energy Commission on September 22, 2010, and began commercial operation in December of 2013. The facility is located in the Mojave Desert, near the Nevada border, in San Bernardino County.

DESCRIPTION OF PROPOSED MODIFICATION

The modifications proposed in the petition would allow ISEGS to revise the description of engines used for emergency generators and fire pumps to match the engines that were installed. In addition, ISEGS is proposing minor alterations to the Conditions of Certification to bring them into conformance with changes made to the operating permits by the Air District.
