## **Nuclear Power Poicy**

It is impossible to comment using the guides in the Docket 15 IEPR 2015 -12 email. A correction is required.

It is time for the CEC to reverse its policy of finding excuses for shutting down Diablo Canyon. CA desperatly needs large sources of clean energy for which solar and wind are not suitable. It is time fo rthe CEC to promote Nuclear Power despite the Governor and Legislature aversion to it. I hope the CEC will start at this workshop to find ways to promote nuclear power as the only viable way to achieve over 10% clean power in CA.
