Subject: Fwd: message to Obama
Date: Monday, July 06, 2015 11:49:46 AM

To: Helpful sample of our protective agency officials:

I am attaching my request to you, with this LNG alert to President Obama because it is an urgent concern in the decision making that you will be considering in this week agenda series on reorganization of energy agenda and transparency processes.

Also, 1. please apply LNG information in the 2015 in combination with other inherent dangerous natural gas polluting characteristics: household fire, deteriorated underground pipe explosions, fracking, forced injection of contaminated drilling-waste-water into our deep clean water resource, poisoning of the air we breathe, and transforming our potentially beautiful coastal zone to ugliness, and

2. please voice in each day's discussion the need postponement of any decision making on reorganization, guide books, requirements, certifications, until appropriately increased media department notifications to cities and public have provided necessary transparency and participation of proposed "life-death" decisions.

Subject: message to Obama

To: cookie@cookieparker.com; cookie@cookieparker.com;

Garamendi when served on Lands Commission of California rejected 3 applications to build LNG harbors on California coast.

Third one was Oxnard, of which he reported that the committee found 18 immitigable negative impacts, informed the LNG company rep in the meeting that the committee would not accept further apps. The approval sought was for bringing LNG from Australia and Indonesia.

Perhaps the Pacific Trade Agreements might result in many of the huge dangerous gas trips from the same area and back from the new trading partners???? When UN announced that this year USA percapita climate change records show USA move to "first most polluting,"

surpassing China, the trade agreement might be just one more U S violation of public trust, unless Obama could get restrictions into this agreement to prevent further violations.

Lyn Harris Hicks Fan of Obama long, long, time....since I was a delegate and heard his spectacular nominating speech for Kerry in Boston National Convention!!! Will you send this suggestion to Obama, or to someone who can get it to Obama....or both??

Appreciatively, Lyn Harris Hicks, past President
of Southern California United Nations Association
