2015 IEPR Update Outline

Dear Raquel,

Just a quick note to again offer my technical writing services, at no charge, with the CEC 2015 IEPR Update:

http://docketpublic.energy.ca.gov/PublicDocuments/15-IEPR-11/TN205398_20150719T170914_Kirk_Gothier_Comments_Kirk_Gothier_Comments_on_Climate_Adaptati.pdf

Continued reliance on IEPR policies focused solely on renewables and fossil fuels, will not reduce carbon emissions, nor help build the sustainable communities all our children deserve: <http://instituteeforenergyresearch.org/analysis/eia-forecast-fossil-fuels-remain-dominant-through-2040/>.

If the 2015 IEPR Update is not updated as recommended, the CEC will again adopt energy policies which condemn billions globally to suffer from energy poverty, and millions to die annually from air pollution:

http://www.unmillenniumproject.org/resources/fastfacts_e.htm

<http://www.who.int/mediacentre/news/releases/2014/air-pollution/en/>.

California should build on President Obama's Presidential Proclamation for National Energy Action, and assert our typical leadership role in promoting all proven energy production technologies, based on a clear, science-based comparison of all risks and benefits: <https://www.whitehouse.gov/the-press-office/2015/09/29/presidential-proclamation-national-energy-action-month-2015>.

Sincerely,

Kirk
