Background and Purpose

AB 802 revises PRC Section 25402.10 to require utilities to provide energy consumption data of covered buildings to the owners of those buildings upon request, and further requires the Energy Commission to establish a public benchmarking program for certain buildings. AB 802 goes into effect on January 1, 2016, and will supersede the existing Nonresidential Building Energy Use Disclosure Program (also known as the AB 1103 program) implemented by the Energy Commission pursuant to Assembly Bill 1103 (Saldana, Chapter 533, Statutes of 2007).

Energy Commission staff will provide an overview of the benchmarking provisions of AB 802, explain the implications for the AB 1103 program, and facilitate a discussion regarding the scope of regulations for the benchmarking provisions of AB 802. Discussion and opportunities to comment will follow the presentation of each section.
